

1973 BMW 3.0 COUPE AUTOMATIC

Registration No. KMN 44

Chassis No. 223 1731 Engine No. 2231 3731/153624

Colour. Silver

Specification:

BMW E9, straight six cylinder SOHC 2986 cc, 9:1 compression ratio twin carburettors and 180 bhp at 6000 rpm.

The BMW New Six CS was a two-door coupe built for BMW by Karmann from 1968 to 1975. It was developed from the New Class-based BMW 2000CS coupe, which was enlarged to hold the BMW M30 straight-6 engine used in the E3 sedan.

The E9 platform, especially the 3.0 CSL homologation special, was very successful in racing, especially in European Touring Car Championship and the Deutsche Rennsport Meisterschaft. This helped to establish BMW's status as a sporty driver's car.

This car is in excellent running order and is offered for sale with Isle of Man registration documents and a set of new seals.
